

Technical drawing of a rectangular frame with the following dimensions:

- Overall width: 35 in
- Overall height: 21 1/2 in
- Inner width (top): 23 7/8 in
- Inner width (bottom): 23 1/4 in
- Inner height (right): 20 5/8 in
- Left side panel width: 8 3/8 in (top section) and 10 1/2 in (bottom section)

Technical drawing of a rectangular panel with dimensions and a cutout. The panel has a total width of 21 1/8 in. and a total height of 19 5/8 in. The cutout is a semi-circular shape with a radius of 9 3/8 in. The distance from the left edge to the center of the cutout is 11 13/16 in. The distance from the top edge to the center of the cutout is 5 in. The cutout is located in the upper right quadrant of the panel.

Technical drawing of a door with dimensions:

- Overall height: $6\frac{1}{2}$ in
- Overall width: $19\frac{3}{4}$ in
- Top panel width: $5\frac{1}{8}$ in
- Top panel height: $2\frac{1}{2}$ in
- Bottom panel width: $10\frac{3}{4}$ in
- Bottom panel height: $5\frac{13}{16}$ in
- Distance between panels: $16\frac{11}{16}$ in
- Distance from top panel to bottom panel: $3\frac{3}{16}$ in

Technical drawing of a cabinet showing dimensions and assembly points. The drawing includes a side view and a top view. The side view shows a cabinet with a height of 48 inches and a depth of 18 inches. The top view shows a cabinet with a width of 48 inches and a depth of 18 inches. The drawing includes a large 'X' mark indicating the assembly area.
